

UA themed Beamer presentation

FirstName LastName

University of Arizona

August 23, 2014

- 1 Overview
- 2 Installation
- 3 Examples

To change the style of the presentation change the “usetheme” option in the preamble.

- There are 3 options:
 - UA - Lateral column on the left side (red and blue)
 - UA2 - Bars on the top and bottom (red and blue)
 - UA3 - Bars on the top and bottom (grey, more formal)
- You may have to compile the tex file two or three times for all the sections to show up.

To change the style of the presentation change the “usetheme” option in the preamble.

 - UA2 - Bars on the top and bottom (red and blue)
 - UA3 - Bars on the top and bottom (grey, more formal)
- You may have to compile the tex file two or three times for all the sections to show up.

- You can use the UA theme as long as the .sty files are in the same folder as your presentation.
- If you would like to permanently use the theme, copy the .sty folders into your L^AT_EX “texmf” folder.

On my computer it looks like this:

/Users/your_user_name/Library/texmf/tex/latex/misc
